

FLORISTRY

Design, Create & Make

'The beauty of flowers is for all to enjoy, admire and feel.'

This introduction to floristry course is for those without prior experience caring for and arranging flowers. It is also well suited to those wanting to refresh the skills they gained from some prior experience.

This fun, hands on course will take you through the process of creating a selection of beautiful floral arrangements. You will also learn wiring and taping techniques, essential to the floristry industry.

You will gain new knowledge and skills in each class, building a firm foundation and pathway to Nationally Recognised Qualifications you might like to pursue.

At the conclusion of each of the five sessions, you will take home a stunning arrangement of flowers.
